

ATTLEBORO, MA - EPA MANDATED UPGRADES

PROJECT INFO:

OWNER:

City of Attleboro, MA

ENGINEER:

CDM Smith

PROJECT VALUE:

\$23.6 Million

TECHNOLOGY / SCOPE:

Wastewater Treatment Plant Upgrades & Modifications

PROJECT HIGHLIGHTS:

This award winning project met an aggressive timeline, while finishing under budget as well

ADDITIONAL DETAILS

The City of Attleboro, Massachusetts made a large investment to upgrade its existing wastewater treatment facility to ensure EPA compliance standards will be met for the next two decades. Methuen Construction replaced over 95 percent of the existing process equipment – more than 130 individual components – in addition to the entire electrical distribution and control systems that included an emergency backup generator, switchgear, transformers, and a SCADA system.
