New Office Construction - MC World Headquarters

PROJECT HIGHLIGHTS:

Methuen Construction turned an abandoned, decrepit manufacturing facility into a modern complex in just 14 months

ADDITIONAL DETAILS

Methuen Construction embarked on a mission to create a new headquarters for its rapidly growing business. It found the former Process Engineering Company in Plaistow, NH, but the 170,000 s/f facility located on 35 acres was in serious disrepair. In 14 months, the company demolished the existing office space, built a new 36,000 s/f 2-story office building and converted the aging complex into a 190,000 s/f state-of-the-art facility that meets the needs of the company now and for the foreseeable future.
