MC facilities Services Group / Architectural
Environments, Inc.

PROJECT VALUE:

Confidential

TECHNOLOGIES/MATERIALS:

Specialty Designed Concrete Foundations

PROJECT HIGHLIGHTS:

Coordination with Biogen's rebranding schedule was
critical to the success of this project

ADDITIONAL DETAILS

Methuen Construction Industrial Services was contracted by Biogen Idec to CONFIDENTIALLY provide site work and Foundations in an urban environment for the corporate rebranding of the company to Biogen at 30 locations throughout Massachusetts without anyone knowing. The project timing was critical and was closely coordinated with corporate branding so that this major announcement and schedule was not compromised. To accommodate the Biogen schedule, Methuen Construction Facilities Services performed much of the work during the worst part of the historic 2015 winter, which required weekend and overtime work.
