

LAWRENCE BRIDGE REPAIR & PAINTING - LAWRENCE, MA

PROJECT INFO:

OWNER:

Washington Mills - SMG Management

ARCHITECT:

TEC, Inc.

PROJECT VALUE:

\$451,275

TECHNOLOGIES/MATERIALS:

Primed and painted steel beams and plates

PROJECT HIGHLIGHTS:

The project repaired, renovated, and painted the Mill Street bridge in Lawrence, MA.

ADDITIONAL DETAILS

The project involved the fabrication, installation and painting of bridge components:

- 2 primed steel channels in the NE corner of the bridge.
- 7 steel beams at the south abutment of the bridge
- Steel plate replacements over floor beams in four locations of the bridge
- 6 PVC down spouts under the bridge drains

Additionally, a six foot section of the bridge railing was straightened, welded, and repaired.
