

NORTH ANDOVER PUMP STATION IMPROVEMENTS - NORTH ANDOVER, MA

PROJECT INFO:

OWNER:

Greater Lawrence Sanitary District

ENGINEER:

CDM Smith

PROJECT VALUE:

\$8.1 Million

TECHNOLOGIES/MATERIALS:

Pumping Station Improvements

PROJECT HIGHLIGHTS:

Wastewater pumps were carefully rigged and removed from the pumping station, refurbished, and then reinstalled

ADDITIONAL DETAILS

The improvements increase pumping capacity from approximately 135 million gallons per day to 165 million gallons per day at the Riverside Pump Station at the Greater Lawrence Sanitary District. Major aspects of the project include maintenance of the existing pumping station operations, mechanical, electrical and instrumentation equipment rehabilitation or replacement. The project also includes modifications/demolition of existing concrete equipment pads and installation of underground electrical duct banks.
