

WALPOLE WATER TANK MIXING SYSTEMS - WALPOLE, MA

PROJECT INFO:

OWNER:

Town of Walpole, MA

ENGINEER:

Wright Pierce

PROJECT VALUE:

\$148,144.00

TECHNOLOGIES/MATERIALS:

Medora Corporation electric GridBee mixing systems

PROJECT HIGHLIGHTS:

The mixing systems are designed for continuous use while submerged in potable water storage tanks

ADDITIONAL DETAILS

The project includes the procurement and installation of fully operational submersible tank mixing systems at four potable water storage tanks within the Town of Walpole, MA. The mixing systems are electric GridBee mixing systems manufactured by the Medora Corporation (Model GS-12), which are designed for continuous use while submerged in potable water storage tanks.
