

LONDONDERRY CUSTOM MODULAR FRAME - LONDONDERRY, NH

PROJECT INFO:

OWNER:

FoodState Inc.

ENGINEER:

H. L. Turner

PROJECT VALUE:

Confidential

TECHNOLOGIES/MATERIALS:

Modular stainless steel frame

PROJECT HIGHLIGHTS:

The stainless steel frame had to be modular so that it could be easily assembled and installed in the press room.

ADDITIONAL DETAILS

Methuen Construction Industrial Services was contracted by FoodState Inc., a major manufacturer of food-based supplemental nutrients, to manage the fabrication and installation of a customized modular frame for a new roller press compactor at their state-of-the-art facility in Londonderry, NH. The frame tube is comprised of #4 brushed 316 stainless steel, while the tread plate is 2B mill finish. The frame is modular so that it could be delivered in pieces and easily installed.
