

## LONDONDERRY CUSTOM MODULAR FRAME - LONDONDERRY, NH

### PROJECT INFO:

**OWNER:**

FoodState Inc.

**ENGINEER:**

H. L. Turner

**PROJECT VALUE:**

Confidential

**TECHNOLOGIES/MATERIALS:**

Modular stainless steel frame

**PROJECT HIGHLIGHTS:**

The stainless steel frame had to be modular so that it could be easily assembled and installed in the press room.

### ADDITIONAL DETAILS

Methuen Construction Industrial Services was contracted by FoodState Inc., a major manufacturer of food-based supplemental nutrients, to manage the fabrication and installation of a customized modular frame for a new roller press compactor at their state-of-the-art facility in Londonderry, NH. The frame tube is comprised of #4 brushed 316 stainless steel, while the tread plate is 2B mill finish. The frame is modular so that it could be delivered in pieces and easily installed.
