

MANCHESTER MERRIMACK RIVER WATER TREATMENT PLANT - HOOKSETT, NH

PROJECT INFO:

OWNER:

City of Manchester/Manchester Water Works

ENGINEER:

CDMSmith

PROJECT VALUE:

\$27.3 Million

PROJECT HIGHLIGHTS:

The work includes a 3,000 square foot pumping station building and a 20,000 square foot treatment building, including pumping equipment, yard piping, a clear well tank, and earthen lagoons.

ADDITIONAL DETAILS

The project consists of constructing a new 7.2 million gallon per day drinking water treatment plant and raw water pumping station. Raw water will be drawn into a radial collector well and pumped to a new treatment facility. The work includes an approximately 3,000 square foot pumping station building and an approximately 20,000 square foot treatment building, including pumping equipment, yard piping, a clear well tank, earthen lagoons and other related work.
