

WWTF ENERGY RECOVERY UPGRADES - NASHUA, NH

PROJECT INFO:

OWNER:

City of Nashua, NH

ENGINEER:

Waldron Engineering

PROJECT VALUE:

\$1.7 Million

PROJECT HIGHLIGHTS:

This projects upgrades the energy recovery system at the wastewater treatment facility in Nashua, NH.

ADDITIONAL DETAILS

Methuen Construction conducted the Energy Recovery Upgrade at the Nashua Wastewater Treatment Facility in Nashua, NH. Work on the Wastewater Treatment Facility includes installation of two (2) gas fired generators, and major modifications to the building interior, including removing entrance walls to make bigger rooms for controls and the generator room. Work also included installation of a new exterior gas blending unit and new roof cut-outs for each generator exhaust system.
