

LEOMINSTER BIOLOGICAL NUTRIENT REMOVAL SYSTEM - LEOMINSTER, MA

PROJECT INFO:

OWNER:

City of Leominster, MA

ENGINEER:

Wright-Pierce

PROJECT VALUE:

\$8.2 Million

TECHNOLOGIES/MATERIALS:

ACTIFLO Nutrient Removal System

PROJECT HIGHLIGHTS:

The new ACTIFLO system meets EPA guidelines for Biological Nutrient Removal

ADDITIONAL DETAILS

Methuen Construction removed existing equipment and relocated critical equipment to a temporary location without interfering with normal plant operations. The company also installed a new ACTIFLO system that meets EPA requirements. Additionally, Methuen Construction self-performed all excavation, backfill and construction of the ACTIFLO and Headworks buildings. Testing of all new equipment and relocated equipment was a critical part of the project.
