

NORTH ANDOVER COMPLEX PUMP REPLACEMENT - NORTH ANDOVER, MA

PROJECT INFO:

OWNER:

Greater Lawrence Sanitary District

ENGINEER:

Kleinfelder/SEA Consultants, Inc.

PROJECT VALUE:

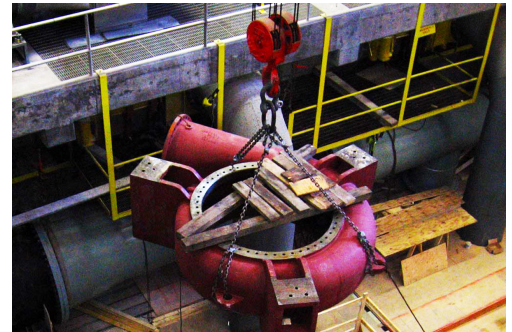

\$50,000

TECHNOLOGIES/MATERIALS:

1250 HP Centrifugal Wastewater Pump

PROJECT HIGHLIGHTS:

This project was successfully completed within the District's schedule

ADDITIONAL DETAILS

Methuen Industrial Services rebuilt and installed a 1250 HP Centrifugal Wastewater Pump at the Greater Lawrence Sanitary District's (GLSD) Riverside Pump Station in North Andover, MA. The pump was fitted with a 58.5" impeller and a 30" discharge pipe that was fabricated in house by the Industrial Services. As part of the project, Industrial Services was responsible for all rigging, setting, startup and testing of the pump.
