Red Hook Brewery, Portsmouth, NH

ENGINEER:

Biothane Corporation

PROJECT VALUE:

Confidential

TECHNOLOGIES/MATERIALS:

Modification/Installation of Ladders, Platforms and Railings

PROJECT HIGHLIGHTS:

Industrial Services performed the installations during a cold winter.

ADDITIONAL DETAILS

The Red Hook Brewery contracted the Industrial Services Group to upgrade damaged access ladders and stairs for large digester tanks at their Portsmouth, NH facility. The work consisted of removing the existing ladders and platforms, fabricating ladders, cages and steel members in the Industrial Services' shop, and installing the fabrications on the digesters at the Red Hook Brewery. The Industrial Services crew performed the work during a very cold New England winter:
